

Lecture Note

Direct Nuclear Reactions for Practitioners

B. T. Kim

Lecture Note

Direct Nuclear Reactions for Practitioners

Direct Nuclear Reactions for Practitioners

Contents

Chapter 1. Quantum Mechanics for Scattering	5
Chapter 2. Scattering Theory	63
Chapter 3. Elastic Scattering and Optical Model	85
Chapter 4. Resonances	121
Chapter 5. Inelastic Scattering and Transfer Reactions - DWBA	137
Chapter 6. Inelastic Scattering in the Coupled-Channel (CC) Method	169
Chapter 7. Dynamic Polarization Potential	185
Chapter 8. Two-body NN Interactions	210
Chapter 9. Distorted Wave Impulse Approximation	215
